

TABLE OF CONTENTS

HOW THIS MANUAL CAN BE USED	1
HOW TO PRESENT ELEMENTARY NOMENCLATURE MATERIAL	3
Activity 1: Matching Picture and Label Cards	4
Activity 2: Matching Picture, Label and Definition Cards	5
INTRODUCTION	7
MAPS AND MAPPING	9
Introduction	9
First Knowledge of the Earth: Review	11
Background Information	11
Activity 1: Examining a Land and Water Globe	12
Activity 2: Studying a Colored Continent Globe	13
Activity 3: Studying a Standard Globe	14
World Map	15
Background Information	15
Activity 1: Changing a Globe to a Map	16
Activity 2: Changing a Map to a Globe	18
Latitude and Longitude	19
Background Information	19
Activity 1: Locating and Using Lines of Latitude and Longitude	21
Activity 2: Locating and Using the Prime Meridian and Lines of Longitude	23
Compass and Directions	24
Background Information	24
Activity 1: Using a Compass and Practicing Directions	25
Activity 2: Practicing More Directions	27
Atlas	28
Background Information	28
Activity 1: Reading an Atlas	29
THE SUN AND EARTH	30
Introduction	30

The Solar System	31
Background Information	31
Activity 1: Setting Up a Model of the Solar System	36
Activity 2: Building a Solar System in a Box	38
Earth's Cycles	39
Background Information	39
Activity 1: Studying the Earth's Rotation and Orbit	40
Time Zones	42
Background Information	42
Activity 1: Investigating Day and Night	43
Activity 2: Calculating Dates and Times	45
EARTH'S ATMOSPHERE	47
Introduction	47
Weather	48
Background Information	48
Activity 1: Recording the Weather	49
Layers of the Atmosphere	51
Background Information	51
Activity 1: Identifying the Atmosphere's Layers	53
Air Pressure	54
Background Information	54
Activity 1: Linking Gravity and Matter with Air Pressure	55
The Water Cycle	57
Background Information	57
Activity 1: Observing How Evaporation Works	59
Activity 2: Making Rain in a Jar	61
Clouds	63
Background Information	63
Activity 1: Displaying Examples of the Basic Types of Clouds	64
Wind	65
Background Information	65
Activity 1: Identifying Different Types of Wind	67
Rainbows	68
Background Information	68
Activity 1: Making Rainbows	69

Climate	70
Background Information	70
Activity 1: Studying the Three Main Climatic Zones	72
EARTH'S HYDROSPHERE	74
Introduction	74
Earth's Water Features	74
Background Information	74
Activity 1: Studying the Hydrosphere	76
Oceans	77
Background Information	77
Activity 1: Studying Oceans as Part of the Water Cycle	79
Activity 2: Studying Marine Life	80
Activity 3: Appreciating Oceans' Importance to Life on Earth	81
Seas	83
Background Information	83
Activity 1: Distinguishing Between Seas and Oceans	84
Glaciers And Icebergs	85
Background Information	85
Activity 1: Making a Model Glacier	87
Activity 2: Making a Model Iceberg	89
Rivers and Streams	91
Background Information	91
Activity 1: Creating Rivers and Streams	93
Lakes and Ponds	95
Background Information	95
Activity 1: Making a Model Lake	97
Wetlands	99
Background Information	99
Activity 1: Showing How a Wetland Filters Water	101
EARTH'S LITHOSPHERE	103
Introduction	103
Earth's Layers	103
Background Information	103
Activity 1: Making a Model of the Earth's Layers	105

Continents	107
Background Information	107
Activity 1: Identifying Continents and Their Features	109
Islands	110
Background Information	110
Activity 1: Making Models of Islands	112
Coastlines	114
Background Information	114
Activity 1: Finding Examples of Coastlines	117
Mountains	118
Background Information	118
Activity 1: Comparing Types of Mountains	120
Activity 2: Making a Model of a Fold Mountain	122
Plains	123
Background Information	123
Activity 1: Studying Plains	124
Valleys	125
Background Information	125
Activity 1: Comparing Different Types of Valleys	127
Rocks and Minerals	128
Background Information	128
Activity 1: Identifying Types of Rocks	131
Activity 2: Studying Minerals	133
Recipe for Modeling Dough	135
RESOURCES	136
GLOSSARY	139
