

TABLE OF CONTENTS

HOW THIS MANUAL CAN BE USED	1
HOW TO PRESENT ELEMENTARY NOMENCLATURE MATERIAL	3
Activity 1: Matching Picture and Label Cards	4
Activity 2: Matching Picture, Label and Definition Cards	5
INTRODUCTION	7
BOTANY	10
Introduction	10
Identification	13
Background Information	13
Herbaceous Plants	13
Activity 1: Reviewing the Parts of a Herbaceous Plant	16
Activity 2: Identifying Common Flowering Herbaceous Plants	16
Common Woody Plants	20
Activity 1: Reviewing Parts of a Tree or Shrub	26
Activity 2: Illustrating Trees and Shrubs	28
The Main Characteristics of Plants	31
Activity 1: Comparing the Five Main Characteristics of Plants and Animals	37
Activity 2: Learning Which Organisms Are Plants	39
Roots	41
Background Information	41
Activity 1: Identifying Roots and Their Functions	45
Activity 2: Learning How Root Hairs Contribute to Root Function	47
Stems	49
Background Information	49
Experiment 1: Demonstrating Circulation in Plant Stems	54
Activity 1: Identifying the Parts of the Stem	56
Activity 2: Determining the Age of a Tree by Counting Its Rings	58

Leaves	60
Background Information	60
Experiment 1: Demonstrating that Leaves Transpire	66
Experiment 2: Demonstrating that Plants Need Light to Make Food and to Stay Healthy	68
Activity 1: Identifying the Parts of the Leaf	71
Activity 2: Defining Leaf Shapes	73
Flowers	75
Background Information	75
Activity 1: Relating the Parts of the Flower to Flower Function.....	79
Seeds and Fruits	82
Background Information	82
Activity 1: Learning the Functions of Fruits and Seeds	84
Basic Needs of Plants	87
Background Information	87
Experiment 1: Demonstrating that Plants Need Water and Warmth to Grow	92
Experiment 2: Demonstrating that Most Plants Need Soil to Grow	96
Experiment 3: Demonstrating that Plants Require Nutrients for Growth	98
Experiment 4: Exploring the Properties of Different Soils	100
Activity 1: Demonstrating that Soil Is a Mixture of Different Particles	102
Humans and Plants	104
Background Information	104
Plants — Food	104
Activity 1: Exploring Staple Foods Around the World	110
Activity 2: Exploring Fruits and Vegetables	112
Activity 3: Exploring Herbs and Spices	114
Plants — Other Uses	117
Activity 1: Investigating Plant-Derived Fabrics and Dyes	121
Activity 2: Investigating Forestry and Logging	123
Activity 3: Investigating How People Use Plants	125
Plant Care	127
Activity 1: Growing Common Garden Flowers	133
Activity 2: Growing Bulbs	135
Activity 3: Caring for Indoor Plants	138

Introduction to Microscopic Organisms	140
Background Information	140
Activity 1: Investigatinn Microscopic Organisms as Spoilers	143
Activity 2: Investigating the Role of Microscopic Organisms in Bread Baking	145
RESOURCES FOR TEACHERS AND STUDENTS	148
Print	148
Web	153
TEMPLATES FOR TEACHERS	157
GLOSSARY	162
