# TABLE OF CONTENTS

## HOW THIS MANUAL CAN BE USED ........................................... 1

## INTRODUCTION ................................................................. 3

## THE BASIC OPERATIONS .................................................... 7
### Addition ................................................................. 8
- Background Information ............................................. 8
- Activity 1: Finding Sums on the Addition Strip Board ........... 12
- Activity 2: Finding Essential Combinations on the Addition Strip Board ........... 14
- Activity 3: Adding with Zero on the Addition Strip Board ....... 16
- Activity 4: Doubling Addends on the Addition Strip Board ....... 17
- Activity 5: Using Addition Chart 3 .................................... 18
- Activity 6: Using Addition Chart 5 .................................... 20
- Activity 7: Playing a Bingo Game with Chart 6 ................. 23
- Activity 8: Playing Games to Memorize Addition Facts ........ 25
- Activity 9: Learning About the Basic Formats of Addition ....... 27
- Activity 10: Playing the Addition Snake Game ................. 29

### Subtraction ............................................................... 33
- Background Information ............................................. 33
- Activity 1: Using the Subtraction Strip Board .................... 36
- Activity 2: Using Subtraction Chart 2 ............................ 38
- Activity 3: Playing a Bingo Game with Chart 3 ................. 40
- Activity 4: Playing Games to Memorize Subtraction Facts .... 42
- Activity 5: Learning About the Basic Formats of Subtraction .. 44
- Activity 6: Playing the Subtraction Snake Game ................. 46

### Multiplication ............................................................ 50
- Background Information ............................................. 50
- Activity 1: Using the Multiplication Bead Board ................. 57
- Activity 2: Finding Combinations of Numbers on the Multiplication Bead Board ........... 59
- Activity 3: Using Multiplication Chart 3 ........................... 60
- Activity 4: Using Multiplication Chart 4 ........................... 62
- Activity 5: Using Multiplication Chart 5 ........................... 64
- Activity 6: Playing Games to Memorize Multiplication Facts .. 66
- Activity 7: Learning About the Basic Formats of Multiplication .. 68
<table>

**MULTIPLICATION AND DIVISION: MOVING TOWARD ABSTRACTION** ...94

**Introduction** ..................................................94

**Multiples and Factors** .......................................96

**Background Information** .....................................96

Activity 1: Finding Multiples Using Colored Bead Bars ...100
Activity 2: Learning About Multiples Using the Algebraic Pegboard ...102
Activity 3: Finding the Lowest Common Multiple Using
the Algebraic Pegboard ...........................................104
Activity 4: Graphing Multiples on the Chart of Multiples ...106
Activity 5: Learning About Multiples Using the Multiples Tables ...108
Activity 6: Learning About Prime Numbers Using Multiples Table C ...110
Activity 7: Learning About Factors Using the Algebraic Pegboard ...111
Activity 8: Identifying Prime Factors ........................114
Activity 9: Identifying Prime Factors Using the Algebraic Pegboard ...116
Activity 10: Building Lowest Common Multiples from
Prime Factors Using the Algebraic Pegboard ...119
Activity 11: Using Prime Factors to Find the Lowest
Common Multiples and Greatest Common Factors ...122

**Division with the Golden Bead Material and the Stamp Game** ...125

**Background Information** .....................................125

Activity 1: Dividing with the Stamp Game ..................127
Activity 2: Doing Group Division with the Golden Beads  ...133
Activity 3: Practicing Group Division with the Golden Bead Material ..........135
Activity 4: Dividing a 3-Digit Dividend by a 2-Digit
Divisor with the Golden Bead Material .......................137
Activity 5: Performing Group Division with the Stamp Game ...140
HIERARCHIES OF NUMBERS .......................................................... 146

Introduction ................................................................. 146

Understanding the Hierarchy of Numbers ........................................... 152
Background Information ....................................................... 152
Activity 1: Learning About Geometric Representation to 1,000,000 .... 153
Activity 2: Learning About Numerals to 1,000,000 ....................... 155

Bead Frames ................................................................. 157
Background Information ....................................................... 157
Activity 1: Exploring the Small Bead Frame .................................. 159
Activity 2: Using the Small Bead Frame and Notation Paper .......... 162
Activity 3: Adding with the Small Bead Frame ........................... 164
Activity 4: Adding with Exchanging, Using the Small Bead Frame ... 166
Activity 5: Subtracting Using the Small Bead Frame ..................... 168
Activity 6: Subtracting with Exchanging, Using the Small Bead Frame 170
Activity 7: Multiplying with the Small Bead Frame ....................... 172
Activity 8: Exploring the Large Bead Frame ............................. 174
Activity 9: Using the Large Bead Frame and Notation Paper ......... 176
Activity 10: Multiplying with the Large Bead Frame .................... 178
Activity 11: Exploring the Flat Bead Frame .............................. 180
Activity 12: Multiplying by a 1-Digit Multiplier Using the Flat Bead Frame .................. 182
Activity 13: Multiplying by a 2-Digit Multiplier Using the Flat Bead Frame ................... 184

Place Value Multiplication .................................................... 187
Background Information ....................................................... 187
Activity 1: Exploring the Checkerboard ...................................... 188
Activity 2: Multiplying by a 1-Digit Multiplier Using the Checkerboard ................. 192
Activity 3: Multiplying by a 2-Digit Multiplier Using the Checkerboard ................. 195
Activity 4: Drawing Using the Checkerboard ............................ 198
Activity 5: Multiplying a 4-Digit Number by a 1-Digit Multiplier Using the Bank Game .................. 202

Long Division ................................................................. 205
Background Information ....................................................... 205
Activity 1: Exploring the Long Division Material ......................... 206
Activity 2: Dividing by 1-Digit Numbers Without Remainders ....... 207
Activity 3: Dividing by 1-Digit Numbers with Remainders .......... 209
Activity 4: Dividing by 2-Digit Numbers Using the Long Division Material .................. 211
