

TABLE OF CONTENTS

HOW THIS MANUAL CAN BE USED	1
ASTRONOMY	4
Introduction	4
Current Scientific Theory About the Creation of the Universe	5
Background Information	5
Activity 1: Demonstrating the Big Bang Theory	12
Activity 2: Demonstrating Hubble's Law	14
The Life Cycle of Stars	17
Background Information	17
Activity 1: Exploring the Life Cycle of a Typical Star	23
Activity 2: Exploring the Life Cycle of a Giant Star	25
The Visibility of Stars and the Constellations	28
Background Information	28
Activity 1: Understanding the Relationship Between the Earth and the Stars	34
Activity 2: Identifying Constellations	36
Activity 3: Exploring the Visibility of Stars in a Constellation	38
Light-Years	41
Background Information	41
Activity 1: Understanding the Light-Year	47
Activity 2: Using Light-Years to Calculate Distance	49
Astronomical Tools	51
Background Information	51
Activity 1: Exploring How a Refracting Telescope Works	56
Activity 2: Exploring How a Reflecting Telescope Works	58
Activity 3: Exploring the Spectrum of a Star	60
The Solar System	62
Background Information	62
Activity 1: Creating a Scale Model of the Milky Way Galaxy	72
Activity 2: Building a Scale Model of the Sun and the Planets	74
Activity 3: Identifying Patterns in the Solar System	77

Earth and the Sun	79
Background Information	79
Activity 1: Demonstrating the Cycle of Day and Night	85
Activity 2: Showing Seasonal Changes in the Length of Day and Night	87
Activity 3: Investigating a Second Cause of the Seasons	90
The Moon, Tides, and Eclipses	93
Background Information	93
Activity 1: Understanding the Relationship Between the Earth and Moon	99
Activity 1: Understanding the Origins of Tides	101
Activity 2: Investigating Eclipses and Tides in Depth	103
Asteroids, Comets, and Meteors	106
Background Information	106
Activity 1: Understanding Asteroids, Comets, and Meteors	111
Activity 2: Recreating Meteor Impact Craters	113
Outer Space Exploration	116
Background Information	116
Activity 1: Exploring the History of Human Space Flight	127
Activity 2: Exploring Space Flight Beyond the Moon	129
 RESOURCES FOR TEACHERS AND STUDENTS	 131
Print	131
Web	135
Audio/Video	140
 GLOSSARY	 142
 ECOLOGY	 149
Introduction	149
The Web of Life	150
Background Information	150
Activity 1: Exploring the Biomes of the Earth	157
Activity 2: Understanding Biomes, Ecosystems, and Niches	159
Activity 3: Understanding the Web of Life	161

Food Chains	164
Background Information	164
Activity 1: Diagramming a Food Chain	171
Activity 2: Identifying the Roles of Organisms in Food Chains	174
Activity 3: Creating Compost	177
Dependence and Interdependence	180
Background Information	180
Activity 1: Exploring Population Balance in an Ecosystem	186
Activity 2: Identifying Succession in a Forest Ecosystem	188
Activity 3: Creating a Climax Community in the Classroom	190
Adaptation and Evolution	194
Background Information	194
Activity 1: Understanding Innate Abilities and Learned Skills	200
Activity 2: Understanding Adaptation	203
Activity 3: Understanding Evolution through Natural Selection	205
Pollution	208
Background Information	208
Activity 1: Identifying Common Pollutants	212
Water Pollution	214
Background Information	214
Activity 1: Investigating Water Pollution	218
Activity 2: Investigating How a City Deals with Water Pollution	220
Air Pollution	222
Background Information	222
Activity 1: Investigating Air Pollution	225
RESOURCES FOR TEACHERS AND STUDENTS	227
Print	227
Web	229
Audio/Video	232
GLOSSARY	233
